PLACE FOR YOUNG MEN

Congressman Hull Discusses Opportunities in Philippines.

Has Just Returned from Visit to Islands and Declares Vast Prospects Are Open in Most Every Line of Business.

Congressman Hull, of Iowa, chairman of the house committee on military affairs, who has arrived at San Francisco from a five months' tour of China, Japan and the Philippines, is deeply impressed with the possibilities of the new American possessions in the orient. He says:

"If I was a young man I don't know where I would rather go than to the Philippines. For a man of brains and industry the islands open a vast prospect in most every line of business for one who has the grit to go there and stick to it.

"The mineral, agricultural and timber resources of these islands constitute a field for commercial enterprise that is practically unlimited. Of course, the present conditions of brigandage make it exceedingly unsafe for people to settle in the islands away from the protection of the military posts. But the people, for the great majority, desire peace and safety and are doing all they can to help the troops attain this end.

"Of course, it is impossible to make an Anglo-Saxon out of an oriental, therefore the Filipino will probably never be an American citizen in the broad sense that is understood by all that term conveys to the man born in the United States of white parents. But as soon as he gets a sufficient education and becomes a little more impregnated with our ideas and loses some of the ideas acquired by a 300-years' association with the Spaniard, the Filipino will be a citizen in spirit, patriotism, industry and education, and will be worthy of participating to the fullest extent in all the benefits of this government.

"Of course, we will have to govern them with firmness as well as with kindness. I think that 40,000 troops is about the right number to keep there for some years to come."

WEAR EITHER RED OR BLUE.

In Paraguay People Indicate by Color of Their Clothing Their Party Affiliations.

In Paraguay the women and children show their active political sympathies by wearing the colors of their parties.

"If American manufacturers want to sell their print cloths to the people of Paraguay they must furnish goods with either a red or blue base," John N. Ruffin, United States consul at Asuncion, Paraguay, explained in an interview. Mr. Ruffin, who is at present in this country, is arranging to return to his post in about two weeks. He has been the consul at Asuncion for five years, and has spent many more years in South America.

"There are two leading political parties in Paraguay, the Colorados and the Azules," he continued. "The color of the Colorados is red and of the Azules blue. The party in power now is the Colorados, or what might be properly called the liberals. The intense partisanship of every man, woman and child is simply astonishing. A member of the 'red' party would not more allow his wife or children to wear clothing in which the predominating color was blue than he would vote the 'blue' ticket himself. The 'blues' are the same way, and as a result the party's colors have had a distinct action in the colors of the clothing of the people. I feel that American print cloth manufacturers ought to know this in order that they may be guided in the patterns they ship to Paraguay."

Mr. Ruffin is enthusiastic over the future possibilities of Paraguay, and is anxious to aid in developing trade between that country and the United States. He says the present great barrier to trade is the lack of direct steamships between the United States and Paraguay and the other South American countries.

Schools Flourish in Philippines.

The division of insular affairs, war department, has received a copy of the annual report of Prof. Fred W. Atkinson, the general superintendent of public instruction for the Philippines, which covers the time from the enactment of the Philippine school law to the close of the last fiscal year, June 30, 1901. In speaking of the general conditions Prof. Atkinson said that the great present need is that of adequate and suitable school buildings. The question of religious instruction in the schools has been settled without friction or any loss in the attendance of pupils.

Historic Trees Yield Much.

Probably the oldest bearing apple trees in Indiana are those planted by Gen. Harrison while territorial governor of Indiana. At that time Gen. Harrison owned a farm on Blue river, seven miles west of Corydon, and not only directed the work on the farm but did much of it himself. He planted an orchard and several of the trees are yet in a good state of preservation and bear fruit annually, the crop this season being especially large. The trees are quite large and are of the Romanite variety.

CROWDS IN BUFFALO

By Associated Press.
Buffalo, Sept. 13.—8:45—Large crowds have assembled on Main street in the vicinity of the newspaper offices and on the streets surrounding the police headquarters where Czolgosz is confined.

Although the sidewalks are so crowded that pedestrians are forced to walk in the center of streets the throng is an orderly one and no demonstration against the prisoner has taken place.

As a precautionary measure ropes have been stretched across all streets leading to the police headquarters and no one is allowed to approach the station except newspaper men. A large force of police is about the building and anyone approaching it is challenged at every 20 or 30 feet. A reserve force is held in the headquarters building for any emergency that may arise.

The crowd is a particularly quiet one, every person silently and eagerly scanning the bulletin boards for some word of hope from the Milburne house.

NATIONAL GUARDS ASSEMBLED

By Associated Press.
Buffalo, Sept. 13.—8:50 p. m.—The Sixty-fifth and Seventy-fourth regiments of the National Guards have been assembled in their barracks to be in readiness should the large crowd assembled about police headquarters make hostile demonstrations. There has been no indication of a disposition on the part of the crowd to do so and the assembling of the National Guards is simply a precautionary measure.

Only two companies have been assembled at each armory. They will

not leave their quarters. The authorities believe it advisable to summon a portion of each regiment to act as a guard over the rifles and ammunition in the armories. The crowd is quiet and orderly. At ten p. m. there were very few people in the vicinity of the police station.

Main street, in the vicinity of the newspaper offices was crowded.

There is hardly any pulse to be felt.

ROOSEVELT FAR AWAY

North Creek, N. Y., Sept. 13.—8:30 p. m.—It is now believed that Vice President Roosevelt cannot reach here before 3 or 4 o'clock tomorrow morning. The messages sent him early this morning giving but few details of the President's condition are the only ones received by him. A team has just been dispatched from the Lower Club House, a distance of 10 miles from the Upper Club House where Roosevelt is stopping, with the latest bulletins showing the alarming condition of the President. These should reach him at 10 p. m.

If he should start at once upon their receipt he would be obliged to drive or ride 35 miles over dark roads before the village of North Creek can be reached.

BULLETIN 11:06 P. M.

By Associated Press.
Milburne House, Buffalo, Sept. 13.—11:06 P. M.—A messenger from the house announced that the President's vitality is marvelous. Conditions remain unchanged and death may come in one minute or not for an hour or more.

Shortly after midnight the President's breathing was barely perceptible, his pulse practically ceased and his extremities were cold. It was recognized that nothing remained but the last struggle and some of the friends of the family who had remained through the day, began to leave the house, not caring to be present at the final scene.

Such an intense state of anxiety existed among the watchers that rumors gained frequent circulation that death had already actually occurred.

The arrival of the Coroner gave rise to one such rumor and a flood of groundless dispatches were sent saying that the end had come. These were speedily set at rest by the official statement from within the house that the reports of death were groundless, and that the President still lived.

Coroner Wilson said he had been ordered by the District Attorney of the County to go to the Milburn residence as soon as possible after the announcement of death. He had seen in a reputable local paper the announcement that the President died at 11:06 p. m., and had hurried up there so there would be no delay in removing the body. He was very much chagrined when Dr. Mann met him at the door and told him that his services were not required, and that he would be notified when he was wanted. Dr. Mann said the President was still alive and that Dr. Janeway was examining his heart action. There was really no hope but they did not desire a gruesome anticipation.

RUSH FOR THE PRISON.

By Associated Press.
Buffalo, N. Y., Sept. 14.—Shortly after midnight the great crowds on the street became excited over a rumor that the President was dead. A rush was made toward the police station where Czolgosz is confined. The crowd was promptly met by the police reserves, mounted and on foot, and were driven back after a weak resistance.

ALIVE AT 10:40 P. M.

Milburne House, Sept. 13.—At 10:40 p. m., Dr. Mann said the President was still alive and might linger for an hour.

MOTHER

Of Emma Goldman Says: "I Disown Her."

Special to the Leader.

Rochester, N. Y., Sept. 14.—Mrs. Goldman, mother of Emma Goldman, was interviewed concerning her daughter's arrest. She said: "Emma Goldman is a worthless creature. I disown her. I am nearly 60 years old, and I don't propose at his age to be disgraced longer by her crazy ideas."

"How long is it since your daughter has been home?"

"This is not her home. I don't have anything to do with her. She can't stop under the same roof with me, not for a single night."

"But she was in Rochester a short time ago?"

"Yes, but she did not stop at my house. She stayed with her half-sister, Mrs. Hochstein."

"What do you think of her arrest?" "Mrs. Hochstein got a telegram telling her not to worry; that it would come out all right. For my part, I don't care what they do with her. I renounce her, I disown her."
